

Financial Brief: Dual-Track XR Platform with Solana Grant Layer

Overview for Samantha Cho, Kim Tran, and Stevie Lee

Koala Tea Eye Candy LLC has developed Numinous - a hybrid motion and telemetry system for XR simulation.

- Patent-pending and operational
- Licensed photogrammetry assets + training simulations
- 5-acre site, fully owned + equipped (\$200K+ value)

Dual-track structure:

- For-profit: Licensing, real estate scans, government-ready XR
- Nonprofit: Open-source toolkit under Solana Foundation grant review

Revenue: \$100K+ (Yr 1), scaling to \$500K+ (Yr 3)

Purpose-built. Capital-efficient. Grant-leveraged.
