

The Koala T Network - Campaign Teaser Video Script

[0:00 - Black Screen. Glitch pulses. Drone telemetry hum.]

VO (Drone, low digital whisper):

"I was born in motion."

[0:03 - Drone POV. Sweeping over trees. Overlay data flickers.]

VO shifts (Human):

"Trained by hands. Programmed by care."

[0:07 - Real dog runs, motion tracker visible. Slow motion.]

VO shifts (Dog):

"I run because they trust me."

[0:10 - Close-up of dog's eye morphing into human in telemetry rig.]

VO shifts (Human):

"We're not separate. We're a pattern."

[0:14 - CAN bus data flows into Unreal viewport. Vehicle telemetry syncing.]

VO shifts (Synthetic):

"From signal... to skeleton."

[0:18 - 360 scan of a building mid-demolition. Freeze-frame.]

VO (Human):

"Some things matter too much to vanish."

[0:22 - Digital token with someone's name floating in XR space.]

VO:

"So we give them a place to stay."

[0:26 - A koala wearing a VR headset. World reflected in its lenses.]

VO softens, almost amused:

"Even me."

[0:30 - Rapid montage: Unreal scenes, scanned places, hands working gear.]

VO:

"Join the signal. Shape the story. immortalize what matters."

[0:35 - Logo: Koala T Network. Text fades in.]

"The Koala T Network"

"Real-Time Hybrid Motion. Shared Memory."

"Support the beta. Join the archive."
